PROFILE

Full Stack web developer with the ability to learn fast, work and adapt quickly to constantly changing environments. I have experience working with technologies such as Javascript, React, Redux, Node JS, Express JS, PostgreSQL, Sequelize, Sass and GitFlow, as well as teamwork, project planning and agile methodologies (SCRUM). In my last project I was in charge of the Front End area, where I was responsible for implementing the user interface and client side logic. Creative, self-motivated, proactive and fully focused on achieving goals.
